CONSERVATION  
TIPS

**1ST ADVICE**

## Drying Rack

Use a drying rack whenever possible instead of always throwing your clothes in the dryer.

## CONSERVATION TIPS

### 2ND ADVICE

## Better Bulbs

%90 of the electricity used by incandescent light bulbs is given off as heat, which is wasted energy and money. Switch to LEDs, CFLs or halogen bulbs instead.

CONSERVATION  
TIPS

**3RD ADVICE**

Rechargeable  
Batteries

Instead of using non-reusable alkaline batteries in devices for remote control use rechargeable batteries

CONSERVATION  
TIPS

**4TH ADVICE**

## Unplug Devices

Electronic devices consume power even when they are turned off. Save money and reduce your carbon footprint by unplugging.
